EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Lawrence Wechsler on 12/2/2008.

The application has been amended as follows:

Please amend claims 14 and 27 as follows by inserting a space between the words "casing" and "said" after the comma in the second to last line of claim 14, and in claim 27 changing "including" in the second line to "includes" and inserting "to" between "so as fix" in the last line. The amended claims are shown below.

14. (Currently Amended) The apparatus according to any one of claims 12 and 13, further comprising:

axially extending fixing protrusions disposed on said branch-conduit, for affixing said branch-conduit; and

corresponding axially extending fixing grooves disposed on at least one of said upper case or said lower case, which cooperate with and fix corresponding ones of said fixing protrusions for axially fixing said tubular body within said outer casing, said protrusions and said grooves being disposed within said outer casing.

27. (Previously Presented) The apparatus according to claim 23, wherein:
said projecting holder ~~including~~ includes a groove dimensioned with a width sufficient to fitably receive said branch conduit; and
said lower case includes an internally disposed protrusion which faces said branch conduit so as to fix the branch conduit in place within said groove.

The following is an examiner's statement of reasons for allowance: The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was a medical fluid delivery apparatus wherein the medical fluid is contained in a tubular body that expands when fluid is introduced into the tubular body, and whose contraction expels/delivers the fluid, wherein the tubular body is wrapped circumferentially around a projecting holder extending axially between upper and lower cases of the housing, and wherein the opposing ends of the tubular body are connected together by a branch conduit which includes an injection port extending to the outside of the upper case, in combination with the other elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LAURA C. SCHELL whose telephone number is (571)272-7881. The examiner can normally be reached on Monday-Friday 9am-5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kevin Simons can be reached on (571) 272-4965. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
